### Career Objective

To expand my graphic design talents utilizing cutting-edge technology, and to further increase the unification of future standards in film and media perspectives.

### Experience

#### **Director, Producer, Graphics, 48-Hour Film Festival; Portland, ME 2007 & 2008**

I organized and led a film crew in the 48-hour film festival for the years 2007 & 2008. We were given two days and two nights to produce a short film from random themes. I have performed as a director, producer, motion graphics and color correct for the films. Out of twenty plus teams we placed in the finals top ten contestants two years in a row, in addition to winning "Best Graphics in a film for Portland, ME 2008".

### Work Experience

#### **Graphic Designer and I.T.; Lone Wolf Documentary Group. June, 2003 – 2008**

During my tenure at Lone Wolf Documentary Group, we continued to receive Emmy awards and nominations for shows airing on cable networks consisting of The History Channel, Discovery Channel, and PBS/NOVA. My employment within the past four and a half years has given me the opportunity to work alongside some very talented filmmakers ever expanding my own skills. I have been responsible not only for the proper utility of all hardware and software, but also for the development, design and maintenance of the company's website ([www.lonewolfdoc.com](http://www.lonewolfdoc.com)), as well as the design of corporate dvd covers, business graphics, project proposals, photography shoots, and programing advanced server side functionality collaboration utilities.

### Education

Self taught. In addition to acquiring a G.E.D.

### Skills

#### **COMPUTER PLATFORMS:**

Macintosh, PC, Linux, Unix

#### **FILM PRODUCTION:**

Editing, Writing, Color Correction, Motion Graphics, Photography, Image Manipulation
